

HITSP

Healthcare Information Technology Standards Panel

a webinar series on U.S. healthcare interoperability

The Healthcare Information Technology Standards Panel (HITSP) is a private- and public-sector partnership that was established under contract to the U.S. Department of Health and Human Services to identify standards that will support the exchange of healthcare information across the United States. Learn more about the Panel and how you can engage in shaping the future of HIT interoperability during a series of nine **free webinars** held throughout the Summer of 2008.

Standardizing How We Share Information in Healthcare: An Introduction to HITSP

What you will learn

During this 90-minute webinar, participants will gain an understanding of:

- the importance of healthcare information sharing and what healthcare interoperability really means.
- the need for standards in healthcare information sharing and how standards can help enhance patient care and contain costs.
- work underway within HITSP — projects that have already been developed, accepted by Secretary Leavitt and implemented; new work and what may be coming next.
- how HITSP fits in with the National Health Information Network, the Certification Commission on Healthcare IT, other HIT organizations, and standards bodies.
- why members of the HIT community should care about HITSP's work and how any interested stakeholder can become engaged.

Who should attend

Consumers, government representatives and policy makers, healthcare providers, standards developers, vendors, and any other interested stakeholder.

Presenter

John D. Halamka, MD, MS, chair of HITSP, CIO of the CareGroup Health System, CIO and dean for technology at Harvard Medical School, chair of the New England Health Electronic Data Interchange Network, CEO of MA-SHARE, and a practicing emergency physician.

MARK YOUR CALENDARS!

The HITSP webinar series includes a total of nine presentations during the period of June 5 to September 18, 2008. **Every session is free!**

Participate live or view an archived session on www.HITSP.org

June '08

Webinar 1 **Standardizing How We Share Information in Healthcare: An Introduction to HITSP**

Thursday, June 5, 2008 — 2:00-3:30 pm EST

Webinar 2 **HITSP Foundational Components**

Thursday, June 19, 2008 — 2:00-3:30 pm EST

Webinar 3 **Consumer Access to Clinical Information**

(Consumer Perspective TC)

Thursday, June 26, 2008 — 2:00-3:30 pm EST

July '08

Webinar 4 **Biosurveillance**

(Population Perspective TC)

Thursday, July 10, 2008 — 2:00-3:30 pm EST

Webinar 5 **Electronic Health Record (EHR) and Lab Reporting**

(Provider Perspective TC)

Thursday, July 24, 2008 — 2:00-3:30 pm EST

August '08

Webinar 6 **Quality**

(Population Perspective TC)

Thursday, August 7, 2008 — 2:00-3:30 pm EST

Webinar 7 **Security, Privacy and Infrastructure**

Thursday, August 21, 2008 — 2:00-3:30 pm EST

September '08

Webinar 8 **EHR and Emergency Response**

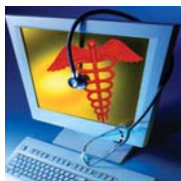

(Provider Perspective TC)

Thursday, September 4, 2008 — 2:00-3:30 pm EST

Webinar 9 **Medication Management**

(Cross-TC - Provider Perspective TC)

Thursday, September 18, 2008 — 2:00-3:30 pm EST

Sponsored by
